

PR EXELON® PATCH

Instructions for use and patient diary

INSTRUCTIONS FOR USE¹

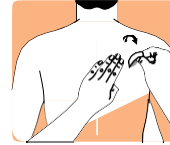

- If you have any questions or require more information, please read the package information leaflet that came with your EXELON[®] PATCH.
- Please consult your doctor or pharmacist with any questions or concerns you may have.

Important to remember

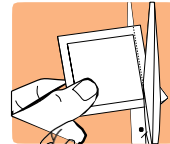

- Only wear **one** patch at a time.
- Take the previous day's patch **off** before applying a new one.
- Having multiple patches on your body could expose you to an excessive amount of medicine which is potentially dangerous.
- Do not cut the patch into pieces.
- Press the patch firmly in place for at least 30 seconds using the palm of the hand.

How to apply

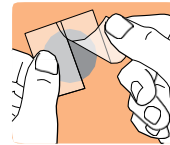

1. Carefully remove the existing patch before putting on one new patch.

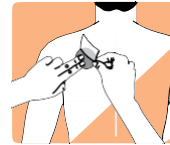

2. Remove the new patch from the pouch.

3. Peel one side of the protective liner off the patch.

4. Stick the patch on the upper or lower back or upper arm, or chest and peel off the second side of the protective liner.

5. Press the patch firmly in place for at least 30 seconds.

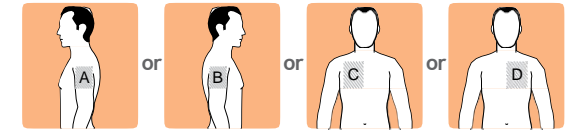

Where to apply

Always gently remove the previous day's patch before putting on **one** new patch.

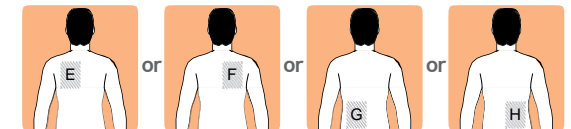

Apply **one** new patch in **one** of the following zones every day.

You can use the same zone (A or B or C or D or E or F or G or H), but do not use the same spot within the same zone for at least 14 days.

Upper arm/chest:

Back:

Reporting of side effects

If you get side effects with any medication you are taking, talk to your doctor, pharmacist or nurse. This includes any possible side effects, listed or not in the information leaflet that comes in the pack. You can also report the side effect.

It is easiest and quickest to report side effects online via the MedEffect

Canada - Canada Vigilance adverse reaction online database:

<https://www.canada.ca/en/health-canada/services/drugs-health-products/medeffect-canada/adverse-reaction-reporting.html>

By reporting side effects, you can help improve health product safety for all Canadians.
